Choose Ultimate Impostrip®

Benefits

✛ **Cost effective**

✛ **Fast & Powerful**

✛ **Flexible & Dynamic**

✛ **Easy-to-use & Intuitive**

✛ **True Hybrid Printing**

Testimonials

"With Ultimate Impostrip®, the work is organized automatically, and we save time and money. - With Ultimate Impostrip®, we were able to switch right away to printing batches of orders instead of single books; we were able to load thousands of files instead of only a few dozen at a time."

– Lupa

"Ultimate Impostrip® worked spectacularly creating large imposition files of orders. It has allowed us to grow our business, finishing hundreds of orders daily, that otherwise would not be possible."

– Cober

"Ultimate Impostrip® is designed to be very flexible with page sizes, as well as support for all of the various imposition requirements of a mixed digital and offset production facility."

– Markono

Ultimate TechnoGraphics

Automation Drives Results

Automation drives results in printing. This is the foundation of all *Impostrip®* product developments and today, Print Service Providers worldwide benefit from increased productivity in a digital and hybrid environment. *Impostrip®* is about flexibility, power, speed and ease of use.

Ultimate TechnoGraphics invented digital imposition with the first release of *Impostrip®* in 1989 and has continued to play a leading role in the market by providing the most innovative imposition products. *Ultimate TechnoGraphics* today leads in imposition and finishing automation software solutions because of its deep understanding of the print manufacturing process. The company has a rich history of providing and integrating imposition technologies into hardware and workflow solutions for print and finishing industry leaders.

- Labels

Ultimate Impostrip®

Automation

Superior Imposition Automation Solution

FEATURES

Easy Automation
Hot Folders or XML connectivity with universal XML mapper

Intelligent Imposition Agent
Automatically selects the best layout for your job

Easy Template Making
Origami virtual paper folding for easy template making

Dynamic Ganging
No templates needed! AutoFlow Ganging for press and paper utilization optimization by grouping different jobs

Dynamic Templates™
Allowing the use of the same imposition layout for multiple size jobs simultaneously

Balance Section Template Numbering
Sections that are entire single rows or columns, but not both

Multi-web and multi-template imposition
Adapt the imposition to web-fed presses requirements

Dynamic Barcodes
For job tracking, quality control and finishing automation

Marks Profiles
Define the relative position of marks on focused pages

Banner Profiles
Automatic insertion of configurable banner sheets and banner pages with variable content and barcodes

PDF optimization and PDF/VT imposition (optional)
Unparalleled performance for high volume transactional or variable data work
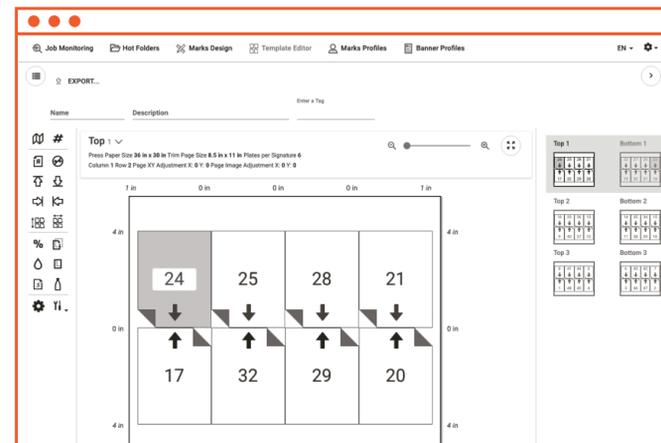

Advanced Offset Features
More flexibility with color bar profiles, spot color and plate layouts

True Shape Nesting (optional)
Create optimized layouts for true shapes using AutoNesting or impose files from the die library

Ultimate Impostrip® Intuitive User Experience
Dramatically simplified navigation, improved visual, clarity and ease-of-use

Ultimate Impostrip®

Scalable

High Volume Imposition Solution

FEATURES
ALL FEATURES OF AUTOMATION PLUS THE ABOVE ⬇

Scalable Server Solution
Combine multiple servers to meet the highest performance requirements

Job Manager
Distribute jobs the most efficient way across all available servers, insuring maximum throughput

Additional imposition servers (optional)
Add as much imposition power as needed to meet your production requirements

Advanced Stacking Options
Batch files in an automated way based on optimizing stacks of similar or different jobs

---

Ultimate Impostrip®

PassGate

Photo Prints Streaming and High-Volume PhotoBooks Production Solution

FEATURES
ALL FEATURES OF AUTOMATION AND SCALABLE PLUS THE ABOVE ⬇

Photo Batching Optimization
Batch high-volume photo files from digital print online photo ordering

JPEG-PDF inputs
Automated JPEG conversion and rotation and the ability to use a PDF workflow

Multi-lane Optimization
Laying photo orders in same lane with a logic of First In, First Out

Ribbon Finishing Type
Rearranging photo orders to minimize the generation of blank pages

Back-Side Printing Automation
Allow adding valuable information to the back of the photo for maximum customization and photo tracking
